Long Life Cylinder - LL Series

Koganei's Environmental Activities

●Environmentally friendly manufacturing is realized throughout the product lifecycle

We support our customers' activities to protect the global environment throughout the product lifecycle. We also comply with environmental regulations such as the RoHS Directive and design products that do not contain hazardous substances to reduce the environmental impact at the time of disposal.

●Contributing to resource Conservation

In order to ensure durability performance that satisfies our customers, we have made further efforts to extend the service life of air cylinders and have made design improvements.

This has resulted in a product that contributes to resource conservation and a reduction in the burden of parts replacement.

●4R activities in recognition of the impact on biodiversity

We recognize the impact of our corporate activities on biodiversity, and systematically promote 4R activities.

Reduce (Reduction of usage)

Reuse (Reuse of resources)

Recycle (Collection and recycling)

Renewable (Switch to recycled materials and plant materials)

●Environmental contribution of long-life cylinders

We reduce resource usage and waste generation by providing high durability products. **(Reduce)** Pneumatic cylinders are widely used in industrial and social infrastructure.

By extending the service life of pneumatic cylinders, we can reduce maintenance time and waste by replacement, and contribute to energy saving and reduction of environmental impact (CO2 emissions reduction).

●Advantages of long-life cylinders

Long Life Cylinder LL Series

Cylinder durability is improved

Note 1: Cylinder durability performance varies depending on operating conditions and environment.

Variations ^{Note 2}

- ① Basic Cylinder
- ② Basic Cylinders with guide
- ③ Slim Cylinder
- ④ Jig Cylinders C Series
- ⑤ Jig Cylinders with guide

Note 2: External dimensions and options are the same as those of standard products (without LL-).
For details, please refer to each series on our website.

Caution *Before using the product, be sure to read the "Safety Precautions" in the general catalog and on the website.

 ZE201 : 2-lead wires, reed switch type without indicator, vertical lead wire^{Note 2}
 ZE202 : 2-lead wires, reed switch type, vertical lead wire^{Note 2}

Number of sensor switches
 1 : 1 sensor switch
 2 : 2 sensor switches
 3 : 3 sensor switches

Note 1: Only $\phi 32$ [1.260] and $\phi 40$ [1.575] diameter bore cylinders can be mounted with back side piping blocks. Back side and side piping is possible as standard for $\phi 8$ [0.315] to $\phi 25$ [0.984] models.

2: Reed type sensor switches cannot be attached to cylinders that have $\phi 8$ [0.315] and $\phi 12$ [0.472] cylinder bores.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

This image shows a full page of blank, lined paper. It features approximately 28 horizontal blue or grey lines spaced evenly apart, typical of notebook paper. The lines extend across the entire width of the page, leaving small margins at the top and bottom. There are no vertical lines, text, or other markings on the page.

Limited Warranty

KOGANEI CORP. warrants its products to be free from defects in material and workmanship subject to the following provisions.

Warranty Period The warranty period is 180 days from the date of delivery.

Koganei Responsibility If a defect in material or workmanship is found during the warranty period, KOGANEI CORP. will replace any part proved defective under normal use free of charge and will provide the service necessary to replace such a part.

Limitations

- This warranty is in lieu of all other warranties, expressed or implied, and is limited to the original cost of the product and shall not include any transportation fee, the cost of installation or any liability for direct, indirect or consequential damage or delay resulting from the defects.

- KOGANEI CORP. shall in no way be liable or responsible for injuries or damage to persons or property arising out of the use or operation of the manufacturer's product.

- This warranty shall be void if the engineered safety devices are removed, made inoperative or not periodically checked for proper functioning.

- Any operation beyond the rated capacity, any improper use or application, or any improper installation of the product, or any substitution upon it with parts not furnished or approved by KOGANEI CORP., shall void this warranty.

- This warranty covers only such items supplied by KOGANEI CORP. The products of other manufacturers are covered only by such warranties made by those original manufacturers, even though such items may have been included as the components.

The specifications are subject to change without notice.
